Please let us know about your professional development needs by **completing this survey.**

Customized Professional Development

IELTS USA supports your professional development needs through a variety of complimentary workshops. Whether you wish to provide new international admissions counselors with a better understanding of IELTS or learn more about updating your current IELTS requirements, we can create personalized workshops to meet your unique needs. We invite you to review a description of some of our most popular workshops.

IELTS 101

The IELTS 101 workshop provides new international admissions counselors with:

- An in-depth overview of each section of the test
- An opportunity to take a sample Listening and Reading test
- An opportunity to score sample Writing scripts and Speaking videos
- An overview of IELTS band scores, test security, score delivery, and more

Time commitment: 2–6 hours

“I think it is very important for campus stakeholders to participate in an IELTS score setting workshop to better understand the English capabilities of potential applicants. IELTS is one of the kindest and most accommodating organizations to provide services such as this.”

Katherine Murrin, Coordinator American Language and Culture Institute at Long Beach City College

IELTS and Student Success

This session builds enrollment managers' knowledge of the linguistic challenges non-native English-speaking students face and the impact these challenges can have not only on academic success, but on social integration and mental well-being. Fundamentals of language assessment (including validity, reliability, and security) will be explored to build enrollment managers' knowledge of what to look for when choosing an English proficiency test. In addition, enrollment managers will explore:

- How English proficiency impacts student success
- How to evaluate English proficiency tests
- How IELTS helps with student success

Time commitment: 2–4 hours

IELTS Score Setting

IELTS standards setting sessions are designed to guide institutions as they choose or plan to update IELTS scores appropriate for the level of academic rigor and amount of language support provided on campus. Prior to the session, IELTS USA will provide a survey to be distributed to key stakeholders on campus to seek input regarding current score requirements. The standards session includes an overview of all four sections of IELTS, a close review of Writing and Speaking samples at different band levels, and guidance on how to select the best score for your program or institution.

Time Commitment: 4–8 hours

Other Complimentary Resources
